Hi Tim,

I have enclosed the 2nd application for the brick facade at 2446 N Lake DR.

I have also enclosed samples that are somewhat close to the original brick.

The Belden is available in standard size (2-1/4" H X 8"W).

The Bowerston is only available as modular, but a closer pattern match. With the Bowerston, there are two sample boards, one would be of the color match. The other is the texture. The manufacturer does have enough of the color blend which best matches, with the pattern that is on the other board.

The 3rd option, CalStar are long bricks which could be cut to the length we need.

These samples are as close to the original as we are going to find, so hopefully, the commission approves one of them. We are running out of time on good weather and would like to get this wrapped up as soon as possible. I can bring the samples into your office when you have time to meet.

Thanks, Rick

I unfortunately do not have time to meet this week. I can meet with you next week after Monday.

So that you don't miss the deadline (Tuesday 9/12), please submit your application with photos of the brick options. All photos should show the new brick in the same frame as one of the original bricks. The application can always be amended, if necessary.

Tim,

Thanks for the leads, but unfortunately we have hit more dead ends.

I do have more samples and another application I would like to submit.

Would you have any time to meet this week?

Thanks, Rick
