

# Good Morning

My name is Doris Messner I live at 6745 No. 115<sup>th</sup> St. My husband really wanted to come today he could not come because he is on an Home Hospice Between the Hospital & Rehab he was in bed for almost a month He was in bed most of the time. The good news is since he's been home he is improving and they are taking him off Hospice. He still has a long road ahead of him he has to learn how to walk He will be getting Physical therapy at home I take care of him 24/7 I <sup>must</sup> be doing something right because he is coming along. I think I have enough on my mind without worrying about a huge Warehouse they want to Build on the end of our road. Here are my concerns I have a long driveway that goes up Hill I heard about the

(2)

Pump that I will probably need.

Where are they going to put it.?

I only have a half Basement How big is the pump are they going to pay for it. Is there a warranty on it.?

How is the pump going to affect my electric bill and how do they charge us for sewer. So this is going to cost me money while the Owners of the warehouse make money. I'm on a fixed income I pay more they make more. You say my property value will go up so will my property taxes.

I dont think people are going to buy our houses with a warehouse on the end of the road. I wouldnt would you. What about my trees I planted them when they were small now they are big and beautiful. We were not well informed, our elected officials have let us down Shame on them they dont listen about →

(3)

What we have to say I would like to ask all the alderman would you stand by your people. I hope to think you would. I also would like to know how many people on the commute up here would want this in there neighborhood having your property dug up & a Big warehouse on your street. and I do believe we are going to get alot more traffic including trucks. I dont care how many signs they put up its not going to work.

I could go on & on ~~at~~ because I have a lot more to say but I want to give my other good neighbours a right to talk. I hope you vote No on this ~~to~~ Reasoning

I'm against this project  
One more thing my husband is at home I found a friend to take care of him till I get home He's watching He's opposed to this also

I Love you Honey
