### Program Goals:

Grant funds will allow the purchase of above stated equipment by way of increasing the amount of total funding that would otherwise be available from local resources alone for such a purpose and equipment is intended to support regional law enforcement response efforts with ALERT.

### Programmatic Summary:

Agencies that accept funding are responsible for all sustainment costs.

Milwaukee Police and the State Division of Criminal Investigation must develop and finalize an agreement for state response prior to completion of the grant and it must be on file with Wisconsin Emergency Management (WEM). Equipment shall be maintained and available to use as intended by the grant for the duration of its useful life. Any proceeds from the sale of equipment at or near the end of its useful life will be considered program revenue and must be reinvested into eligible homeland security expenses.

All personnel who utilize equipment purchased with funds from this grant must receive training either through the equipment vendor or other competent source specific to that piece of equipment before it is put into service. The sub-recipient is required to maintain proper training records.

Federal funds cannot be used to supplant local funds; they must increase the amount of funds that would otherwise be available from local resources.

The recipient agrees that when practicable, any equipment purchased with grant funding shall be prominently marked as follows: "Purchased with funds provided by the U.S. Department of Homeland Security."
