RE: Police Department Overtime Communication Request

Dear Alderman Murphy,

The recent event concerning the unfortunate disappearance of two young boys here in the City of Milwaukee has brought our citizens together hoping for a positive outcome. The Milwaukee Police Department has performed exceptionally well addressing the situation, given the circumstances and the difficulty of their investigation.

My concern is that resources have been exhausted from the police department's budget and previous action from the Common Council has restricted funding concerning the department's overtime budget. I would like for you to schedule a communication file concerning the current expenditure of overtime as it relates to the issue of the ongoing search.

With the spring and summer season shortly upon us, I have a concern of sufficient funding of the department for law enforcement initiatives throughout our communities. I look forward to your response.

Sincerely,

Joe Davis, Sr.
Alderman, 2nd District
City of Milwaukee
