180.10 DEFINITIONS (WILEAG 6.1.5)

H. SILVER ALERT

1. The Silver Alert System is a cooperative effort between law enforcement and the broadcast media in the event of a missing person, aged 60 or older, who is believed to be missing as a result of impaired cognitive disorders such as dementia or Alzheimer's, or other permanent cognitive impairment. Activation of the system provides emergency broadcasts of descriptive information of the missing through a multitude of media outlets and must be made within 72 hours of the individual's disappearance.
2. The Silver Alert System may also be utilized for a person who has not attained the age of 18 years, whose location is unknown, and whose situation does not qualify for another alert and the person is believed to be incapable of returning home without assistance due to a physical or mental condition or disability or the person has not attained the age of 10 years.

180.15 MISSING REPORT PROCEDURES (WILEAG 6.1.5, 6.6.5)

- C. The police member taking the report shall complete a *Missing Persons Report* in the Records Management System (RMS) utilizing the approved template in the narrative section and shall not modify or delete any items from the template in RMS (e.g., if a portion of the template does not apply to the investigation, the member shall indicate why it does not apply, or simply state N/A, instead of deleting the template language as this will ensure each section of the template is addressed during the investigation). The member shall complete a *Missing Certification Form* (form PM-34) and the reporting person shall sign the National Crime Information Center (NCIC) authorization on the report to enter the missing person into the NCIC Missing Persons File. Members shall forward the PM-34 within 24 hours to the Records Management Division - Imaging.
