Dear Mr. Leonhardt,

This letter is to notify the City of Milwaukee that Meda-Care Ambulance has no objection to the extension of the current service plan, which was decided at a meeting of the Ambulance Services Board on October 25, 2005. We are indeed interested in continuing our participation in the City of Milwaukee Emergency Medical System, serving the sector listed as Service Area #2.

This letter is being sent to you for clarification purposes, even though ambulance certification has not yet been completed, as required under ordinance 75-15-13, B-1.

If you have any questions, I may be contacted at 414-342-6389.

Sincerely,

Linda Wiedmann
