

# CITY OF LOCUST GROVE REQUEST FOR QUALIFICATIONS

City branding and related design materials

The City of Locust Grove is located approximately 35 miles southeast of downtown Atlanta on Interstate 75. As an exurb of Atlanta, our city offers an expanding variety of housing, retail, dining, lodging, and business opportunities. With about 6,715 residents according to the latest census estimates, Locust Grove is experiencing a record-breaking year of single-family home development. The area's access to major transportation systems make Locust Grove and Henry County a strategic location for warehousing and distribution centers. Recent increases in residential and commercial development present the City with a unique opportunity to refine our brand identity.

Current branding used in marketing, print materials, promotional items, signage, as well as City services and tourism websites includes several logos that appear visually unrelated. These brand materials include the City seal, Main Street logo and slogan, as well as two tourism-related logos designed in conjunction with the 2016 [www.visitlocustgrove.com](http://www.visitlocustgrove.com) website redesign.

The City seeks to unify our marketing and communications materials with a strong brand statement, branded design elements, and guidelines for proper usage of such elements. All existing brand materials, including the City Seal, may be discarded entirely or modified as appropriate throughout the course of the rebranding process.

## I. SCOPE OF WORK

The City of Locust Grove is soliciting statements of qualifications from marketing agencies and graphic designers for the development of new branding for the City, with focus in four general areas: Main Street; Tourism Development; Economic Development; and City Governance. The process should develop a dynamic design of a new primary logo(s), tagline, and related brand elements by areas including such items as development of corporate branding for economic development and wayfinding features. Final brand elements should include logo with variations, guidelines for typography and typeface, primary and secondary color palettes, and a visual brand guide for consistent usage of brand elements. The selected firm will be tasked with designing an updated corporate image for the City of Locust Grove to be used in the design of banners, City flag, print materials, gateway signage, web content, and other forms of media, and therefore must be rendered in various sizes and file formats.

The ideal candidate will work with the City in a continual brand development process, including solicitation of public input and review and revisions as directed by City officials and key staff.

## II. PROJECT DELIVERABLES
