Subject: Data Center Concerns

Some people who received this message don't often get email from snbrown0205@gmail.com. [Learn why this is important](#)

The building of a data center in the middle of Milwaukee is a major detriment to the community and its members. People are already suffering from businesses closing in this area. People are already being driven away from this area due to the lack of business and investment in this area. Having a data center will only further this cause. Please reconsider your data center plans for the health of our city.
