2009 Rhode Island Code

Title 39 - Public Utilities and Carriers

CHAPTER 39-2.1 - Location of Residential Gas Regulators and Gas Meters

§ 39-2.1-2 - Location of gas regulators and/or gas meters in historic districts.

SECTION 39-2.1-2

§ 39-2.1-2 Location of gas regulators and/or gas meters in historic districts.

– (a) The public utility is hereby prohibited from installing gas regulators or gas meters on the exterior of property located within a historic district, unless permitted to do so by the owner, and are hereby required to obtain a certificate of appropriateness from the historic district commission of any city or town which has been created by the city or town council in accordance with the provisions of chapter 45-24.1, et. seq.; provided, however, in high pressure systems, the public utility may install gas regulators on the exterior of property, subject to the exterior location being approved by the owner and the historic district commission.

(b) For the purposes of this section "property located with a historic district" means "a certified historic structure" as defined in subdivision 44-33.2-2(1).
