Subject: 2574-90 North Downer Avenue

Dear Sir:

I understand that the city has planned and does plan to sell this lot to New Land Enterprises for the development of a six story parking garage. As an interested citizen of Milwaukee, I would like to raise my objection to this development on the following basis:

- The residence located at 2623 East Belleview Place will be adversely affected. I understand that the project is less than five feet from the residence in question. This property will be financially and physically diminished.
- The scale of the proposed parking structure is inconsistent with the surrounding commercial buildings.

Please minimize or otherwise mitigate the adverse effects outlined above.

Sincerely,

Howard Roth
1522 North Prospect Avenue
Unit 405
Milwaukee
