SUBJECT: Threats-By And Incompetence/Ignorance-Of A MPD Officer

Greetings:

Today, I received a, barely intelligible, telephone message from some female identifying herself as "Officer Watts" (*ie* No first name offered or, perhaps, only as a unintelligible noise) of your department.

She stated that MPD has received a complaint from some "lady" (*sic*) that I had sent her a letter in response to her "article" in a newspaper. She also commanded me to not sent that "lady" any further communications or I would be prosecuted for some unintelligibly-stated offense. (That officer was ignorant of the ease of obtaining addresses. That is an easy process which should be taught to her.) That officer was also too incompetent to provide me with the name of the complaining creature so that I might, *if and only if* I so wished, avoid sending further correspondence to her.

That officer asked me to telephone her. I do not return such calls as I maintain it is my right to have all communications from government agencies in writing.

As that complainant has exercised her rights, under the First Amendment to our Republic's *Constitution*, to express her thoughts, I have the absolute right to respond to that Fascist if I do not threaten her with injury. It would be best if that officer were reminded of the meaning of the phrase "Violation Of Civil Rights Under Color Of Law" and of the millions-of-dollars which has been paid-out by the City of Milwaukee, in recent times, for such violations.

You are (As am I) fully free to share copies of this letter with anyone.

Hopefully yours,

James Pawlak
