The provisions of this contract have been reviewed and approved by the Office of the City Attorney.

SERVICE DESCRIPTION (General):

The City of Milwaukee filed an Application for and received a grant award from the United States Department of Energy (DOE) in Funding Opportunity Announcement Number DE-FOA-0001168 Advancing Solutions to Improve the Energy Efficiency of U.S. Commercial Buildings in the amount of \$750,000. The "Statement of Project Objectives", attached to the Grant Agreement between DOE and the City of Milwaukee as Attachment 1 and attached to this Agreement as Exhibit B (Statement of Project Objectives), describes the general project objectives for the Better Buildings Challenge - Milwaukee (BBC), referred to in the grant application as the Location, Location, Efficiency! program. Total funding of the BBC program is \$1,500,000, with maximum grant funding of \$750,000. \$38,479 of the available grant funds is allocated to Milwaukee Area Technical College (MATC) for its administrative and program services, including work-study and internship positions for students. MATC will provide \$50,000 of in-kind contribution. Allocation of the total funds among all of the grant partners and the distinction of in-kind contributions and grant funds is set forth in Exhibit C. While supporting the program's overall objectives as outlined in the Statement of Project Objectives, the City reserves the right to revise the BBC program strategies and tasks within DOE parameters. This Agreement acknowledges that the project objectives must be achieved within a rapidly evolving policy environment at the federal government level and that all funding is contingent upon successful completion of Go/No-Go checkpoints for the program as a whole set by DOE.

This Agreement sets forth the roles, responsibilities, and allocation of resources between the City of Milwaukee and Milwaukee Area Technical College both as to general project oversight and the allocation and use of grant award funds for the BBC program, consistent with the objectives, terms, and conditions of the DOE grant award. This Agreement does not create any liability or penalty for the City or MATC if customer demand does not meet projections set forth in the Statement of Project Objectives, including the estimated number of buildings and students to be served by the BBC program. If any part of the Statement of Project Objectives conflicts with the terms of this Agreement, this Agreement shall govern.

Statement of Project Objectives**

STATEMENT OF PROJECT OBJECTIVES

City of Milwaukee

Location, Location, Efficiency! (L.L.E!)

A. PROJECT OBJECTIVES

The goals of the Location, Location, Efficiency (L.L.E!) program are to 1) Demonstrate how energy efficiency increases profitability of commercial buildings; 2) Track energy savings impact for up to 200 buildings in Wisconsin through retrofits or commissioning; 3) Increase Wisconsin's building footprint in the Better Buildings Challenge, with an individual building goal of 20% energy reduction; 4) Make lasting improvements to Wisconsin's existing energy efficiency framework by coordinating partners and integrating various Department of Energy (DOE) tools, and 5) Assist customers in benchmarking using Portfolio Manager, piloting the Standard Energy Efficiency Data (SEED) Platform™, and using Asset Score to conduct building energy audits or other DOE tools.

B. TECHNICAL SCOPE SUMMARY

Milwaukee will deploy Department of Energy tools and practices in Class B&C Offices, schools, municipal buildings, and small commercial to demonstrate the value of building energy efficiency. Programmatic activities will begin in the City of Milwaukee and expand statewide through various partner organizations (Partners). Partners will recruit participants for the Better Buildings Challenge. Partners will bundle energy efficiency services including project development, financing, Operations and Maintenance support, and deployment and awards. Milwaukee will incorporate various DOE tools into a Deep Energy Efficiency Program (DEEP).

C. TASKS TO BE PERFORMED

BUDGET PERIOD (BP) 1: PLAN

TASK 1.0: DEVELOP PROJECT MANAGEMENT PLAN AND WORK PLAN

Develop a cohesive framework that addresses how DOE tools align and support the activities associated with this project. This task includes the creation of a workplan and timeline for a DEEP including Benchmarking, Property Assessed Clean Energy (PACE) finance, and a pathway for buildings to proceed from energy analysis (benchmarking, audits, evaluation) to retrofit planning (procurement and technical assistance) to operations and maintenance such as retro-commissioning (RCx) or Existing Building Commissioning (EBCx) to tracking impact (cost, energy, labor savings, etc.) to recognition (awards, deployment, outreach).

Subtask 1.4: Negotiate and Execute Contracts with Vendors

M1.8. Negotiate and execute first round of contracts with vendors to deliver DEEP including benchmarking.

Budget Period 1 Go/No-Go Decision Point (BP1 Q2): The framework and selected customer process management tool have been presented to DOE, and DOE has approved the framework and tool for implementation over the remaining term of the award. A PMP has been submitted and approved by DOE. The PMP outlines all key partner goals and activities, project milestones, dates, dependencies and includes spending targets for each milestone and budget period.

BUDGET PERIOD 2: INTEGRATION AND LAUNCH

TASK 2.0: INTEGRATION

Bundle and integrate 1) customer engagement and customer defined goals with 1) benchmarking, 2) energy audit, 3) financing, 4) retrofit or operational improvements, 5) building operations staff development.
