

To the Honorable
Common Council
City of Milwaukee

Dear Council Members:

The Buildings and Fleet Division has a computerized security system and various digital field control units which operate and monitor the card access system for the Municipal Building, City Hall, 809 Broadway Building, and numerous outlying buildings. We also operate a CCTV network throughout the Downtown Complex and at some outlying buildings.

Building modifications and changing security needs require changes to be made to the Card Access System and CCTV network to control new and modified equipment

The original Card Access Computer System and CCTV network were installed and are serviced by Toepfer Security Corporation. It would, therefore, be in the best interests of the City of Milwaukee to procure the necessary equipment, materials, and services to make required modifications to the Card Access Computer System and CCTV network from Toepfer Security Corporation in order to provide compatibility of equipment and undivided responsibility for maintaining and servicing the equipment.

We, therefore, respectfully recommend the adoption of the attached resolution authorizing the Commissioner of Public Works to procure the necessary equipment, material, and services to make required modifications to the Card Access Computer System and CCTV network from Toepfer Security Corporation during 2002.

Sincerely,

venu.j.gupta@cityofnewyork.gov
VENU J. GUPTA, Director
Buildings and Fleet Division

Commissioner
