Subject: Concerns About Proposed Data Center at Midtown Center (Milwaukee, WI)

Some people who received this message don't often get email from ricquana@gmail.com. [Learn why this is important](#)

Dear City Council / Planning Commission,

I am a resident of Milwaukee, WI, and I am writing to express my concerns about the proposed data center development at Midtown Center.

While I recognize the importance of growth and investment, this project raises several important issues for our community. Data centers require significant amounts of water and electricity, which may place added strain on local resources. Additionally, these facilities typically create relatively few permanent jobs while occupying large amounts of land.

I am also concerned about potential impacts on nearby residents, including continuous noise, air pollution, increased energy bills, and changes to the character of our community.

Given these concerns, I respectfully ask that you reject this proposal.

Thank you for your time and for considering the voices of residents.

Sincerely,
Ricquana Grady
