Re: C. I. File #05-5-204

Dear Sir or Madam:

I am in receipt of your letter dated August 10, 2005 regarding a claim that I filed for damage done to my personal vehicle. I am not surprised, although I am deeply disappointed that you have disregarded my petition so easily. You state that you had an investigator look into my claim. However, your alleged "investigator" did not have the courtesy to contact me in any way or fashion. I received no phone call, letter or visit to inquire as to what happened. Nor were any of my neighbors, who were also witness to the incident, contacted. This was clearly not a detailed investigation.

I have enclosed, for your deliberation, copies of photographs taken minutes after the city tree fell on my van. These pictures clearly show that the tree did indeed fall directly across the hood of the vehicle. I suggest that you check with your personnel again. Please feel free to keep the photographs, as I have copies of them all. I also have more available for your perusal, should you wish to see them.

The damage inflicted on my vehicle, although minor, did indeed happen as the result of the tree falling on my van. I had just purchased and taken control of the van only days before the incident. That fact adds insult to the injury of your callous disregard of my claim.

I welcome any questions you may have for me. I can be contacted at the above address or at my home phone number (414) 481-2321.

Sincerely,

Michael J. McCord

July 14, 2005

Dear Sir or Madam:

On Sunday, June 5, at approximately 6:00 pm my vehicle was parked on the street in front of my home. A tree, about 20-25 feet tall broke and fell across the hood of my vehicle, causing some dents and scratches on the hood, fender and front bumper. The tree was located next to the street.

I have obtained two estimates for your consideration for the necessary repairs. I will be out of town from July 14 to July 23, however you can contact me at any time after that.

Thank you for your attention in this matter.

Sincerely,

*Michael McCord*
