

8-20-01 Claim for faulty Storm Sewer

1997 Water in my basement result of New Water Main installation. New Storm sewer up the St. Sank pulling & crushing old Storm Sewer, this was repaired & additional 18 ft of new pipe laid up to my Sidewalk. Settled Claim June 1998

OK until 5-11-00 Water in my basement. City came out 5-12-00. I called 5-16-00 & had note rooter & Sewer was blocked by the Sidewalk.

In 1997 when the machine was in front of my house the new pipe to the Hydrant broke. Water ran for 24 hrs. Hydrant is 15 ft from my sewer also driveway 24/2 also sunk.

Person from American Sewer Svc. came out 11-30-00. Explained to him we got close to the Sidewalk with the gate Rooter. He said they would take care of it & hoped he did not have to dig on my side of the Sidewalk.

American Sewer Svc. came out March 2001 & dug up between curb & Sidewalk. Said their new pipe had spread apart & I must have cut the end of the pipe. Told me to connect my gutters note (no water in basement when gutters are disconnected). Water came in 4-24-01. Feltner's came out 4-26-01 with the camera. Blocked close to Sidewalk (see Bill) advised 7-17-01 that American Sewer Svc. could not come back. Bob Viktora 286-3896

connected gutters west side 8-14-01 Water started to come in 3 AM disconnected gutter

I called the inspector after they filled
the hole with gravel and 2001, as to how
deep the pipe had settled. If the pipe
separated in the boots it meant how settled
pulling the old pipe with it. He did not
know. I said they main Stain Sewer is 101'
I pushed a Conduit pipe down 95 ft. but could
not locate the pipe.

American Sewer recently repaired Richard
Mach 2537 W BOLIVAR Stain Sewer which
was damaged 1999 during the summate
main installation. Camera inspected 4-26-01

Doesn't the city on American Sewer own a
sewer camera so they can double check before
digging. It takes 15 min to run the camera
into the sewer?

Also the driveway scrub 2421 W BOLIVAR
2500⁰⁰ to dig up ^{on W} Side of main to see
if the ground penetrated my gravel tile outside
