Good Afternoon Jan,

I hope you are doing well! I cannot believe that Labor Day is in our rear view mirror. I wanted to be timely in acknowledging the comments and questions that Colleen Reilly raised regarding the historical documentation for the Lake Park Ravine Road Bridge. Please see the attached letter. I just wanted to be responsive and communicative regarding the questions raised. The Parks Team and the LPF met earlier this morning to discuss the maintenance MOU. Parks and A+E met with Sup. Wasserman today as well to give him an update on the project. We discussed the current cost estimate and the current available budget. As always, I look forward to working with you and the Lake Park Friends on this project. Take care!

Sincerely,
Guy

Guy D. Smith, CPRP
