Tell us what you want to do. Describe all proposed work including materials, design, and dimensions. Additional pages may be attached via email.

I am replacing my garage doors, which are very dull and not worthy of the home as can be seen in the attached photos. I have retained Patrick Burke, a Wisconsinite who is a master at wood carving, to create something exceptional. His drawings and measurements are also attached. The garage doors as well as the hand carved panels above the doors will be created out of white oak, which is the wood used throughout the mansion. Furthermore, the style of the garage doors are designed to match the existing front door of the home.

I am not doing anything to impact the structure. The existing garage door will be removed and replaced in the exact same dimensions.

(The Project is for both doors of course,
both identical)
