

CITY OF MILWAUKEE FIRE DEPARTMENT

EMS Tiered Response

Fire Dispatch Receives The 911 Call

- ▶ Calls come into the MFD Dispatch Center 24hrs a day, seven days a week.

The Call is Triageed

- ▶ Priority Dispatch software is used to triage the call and give the caller directions.
 - For example: How to do CPR or stop bleeding while awaiting EMS.
- ▶ The call is triaged into one of three basic levels:
 - ALS (Advanced Life Support),
 - high level BLS (Basic Life Support) or
 - low level BLS

- The closest Fire **Paramedic Unit(s)** is dispatched. >>
- The closest **fire apparatus** is dispatched.

Higher Level BLS

- Fire apparatus is sent alone & the patient is further triaged.
 - A private BLS ambulance is called to transport or
 - A fire paramedic (ALS unit) is called.

Lower level BLS:

- MFD dispatchers send the call directly to the individual private ambulance dispatch computer.
- Each individual ambulance company then dispatches their BLS ambulances
