 CITY OF MILWAUKEE

**Description of Incident:**

On April 14<sup>th</sup> at approximately 06:45 AM, Approx. 9900 W Silver Spring I was delivering hand made concrete planters to a landscape company in Menomonee Falls. When turning right onto the merge ramp from Appleton Ave. to Silver Spring West the ramp had such bad, deep and wide pot holes it was impossible to miss any. Even after braking and slowing down they caused my trailer to bounce so bad that I one planter bounce out of the trailer and shatter in the street and the remaining planters suffered huge structural cracks that can not be repaired. After stopping to clean up the planter that bounced out and resecuring them and their crates to the trailer, the trailer continued bounce a great deal until I got past I-45 and Silver Spring.
