RONALD D. LEONHARDT
CITY CLERK

On the morning of November 5, 2001, at approximately 10:30, our son Benjamin parked our 1994 dark green Ford Taurus LX on Wisconsin Avenue in front of "Downtown Books" facing east, using a parking meter. He said there was a yellow truck with a "cherry-picker" crane parked behind him. Shortly after he entered the bookstore, he heard a workman in the basket at the end of the crane yell. Looking down from the second floor, he saw that the yellow truck with the crane and basket had fallen over sideways toward the building, breaking the front window of the bookstore, and crushing his car. He then exited the store to get a closer look and to see what had happened to the worker in the crane. He waited there on the sidewalk while the ambulance and police arrived attending to the man who was in the crane's basket. The Police took a statement from Ben. We were relieved to hear the crane operator's injuries were not life threatening. Ben called home. His brother and father met him at the bookstore. Lawrence (Luke) Watkins, Ben's father, talked with a DPW man who said the truck tipped because only one outrigger or stabilizer was extended. The crane operator and his partner were only going to work on one lamp close to the truck at first. As the worker on the ground was investigating a wiring problem at the base of the first lamp, the crane operator decided to move his crane forward (East) to work on a second lamppost. This action took the truck and crane out of its originally stable condition, causing the truck/crane assembly to topple over. The worker on the ground was able to escape to safety away from his original position between the crane-truck and the first lamppost. The City crane-truck involved was vehicle number 26317. The Police report number is 7604858.

Since we've lost the use of our '94 Ford Taurus through no fault of our own, we would like the City to reimburse us for this loss. The amount we are requesting is \$6,750.00. The above amount reflects the purchase price of the Taurus, and, since we just purchased this car a few months ago (in June), we feel we should also be reimbursed for the sales tax paid on it, and the cost of registration and license. We will have to pay these fees (again this year) on a

replacement vehicle. It also includes the amount we have recently (within the last few months) put into it to make it a reliable car for our son to use for college and a part time job. Part of the above cost is that of renting a car as a temporary replacement. This is being done through Thrifty Car Rental for a weekly rate of \$212.03 (including taxes & state surcharge). We have figured an amount for 4 weeks. The total amount for this rental will depend on how long it will take to get this settled, and would need to be adjusted after we hear from the city, in which case the amount will be higher if we need to be reimbursed for more than 4 weeks. Included also is the amount of the compensation lost that day because Lawrence Watkins III was late to work as a result of the accident, missing 2.3 hours of work which is noted on a copy of his work time sheet (included). We have provided copies of everything we thought you would need to process this claim. If there is anything else you need, let us know. At present, the car is in our driveway, where we had it towed. Please let us know what to do with it. We don't know if the city will make arrangements to have it towed to a junkyard – if not we would have to include costs for this which would have to also be added at a later date.

We would appreciate it if you could take care of this matter as soon as possible. We can be reached at the following:
