Hello,

My name is Lydia Pruhs, I'm a Milwaukee resident and TAXPAYER and I'm begging you to please nix the absolutely ludicrous proposal to put a data center in the middle of Milwaukee City.

Please do the right thing. Think about your children please. Think about the beautiful Lake Michigan please. Think about your lungs, and the lungs of your children. Think about the wealth gap and segregation in Milwaukee, please think a few years ahead about unintended consequences of this.

I'm peeved.

Even when minimally touching the topic of AI in general, by way of its now physical presence proposed in our city, the list of untoward effects goes on and on and on and on and on...

I am outraged and honestly dumbfounded. My mouth is hanging open. Disrespect intended to whomever laid this on the table. Please put people > profit. This is absolutely ridiculous.

NO DATA CENTERS IN WISCONSIN, PERIOD!!!

Please let me know if there is a more pertinent organization to voice my concerns to.

Over it,
Lydia Pruhs
