Subject: 2006 Capital Improvements Program
Infrastructure Services Division
New Traffic Signal Installations at
West Canal Street and North Potawatomi Circle (Old 16th Street)
South 16th Street Viaduct and the Potawatomi Structure Ramp
Common Council File #060597

Dear Honorable Members:

Attached is a resolution pertaining to the installation of two new traffic control signals; one is to be located at the intersection of West Canal Street and North Potawatomi Circle (Old 16th Street) and the second will be at the proposed intersection of South 16th Street Viaduct and the Potawatomi Structure Ramp in the 8th and 12th Aldermanic Districts. The Forest County Potawatomi Community of Wisconsin provides one hundred percent of the funding for the installation, maintenance, and operation of these traffic signals.

This resolution allows the Commissioner of Public Works to enter into two agreements, one for each intersection, with the Forest County Potawatomi Community of Wisconsin for the funding of the installation, operation, and maintenance of the traffic signals. It also authorizes the installation of the traffic signals and the creation of the grant accounts for the funding.

Very truly yours,

Jeffrey S. Polenske, P.E.
City Engineer

Jeffrey J. Mantes
Commissioner of Public Works
