City of Milwaukee,

I am writing to express my grave concern over the proposed data center at 60th and Capital. This center will extract the community resources and give nothing in return. The surrounding neighborhoods are already grossly under-resourced! As a resident living within 1/2 mile of the proposed location, I strongly oppose this proposal.

We do not want our water, land, and efforts going towards this money-making scheme. This email was composed without the use of AI.

Resident,
