

Department of Public Works

Jeffrey J. Mantes Commissioner of Public Works

James P. Purko Director of Operations

October 10, 2005

To the Honorable, the Common Council

Dear Honorable Members:

Section 309-41 of the Milwaukee Code of Ordinances established the Residents Preference Program for contract work on City infrastructure. Furthermore, subsection 309-41(4) provides for an annual review of the program.

Enclosed are ten (10) copies of the annual report for 2004. This report summarizes the Department of Public Works' performance administering the Residents Preference Program. The report also compares Resident Preference results in 2004 with previous years' performance.

Please introduce this communication at the Common Council meeting of October 18<sup>th</sup>. If you have any questions, feel free to contact Tom Miller at extension 3304.

Very truly yours

√efffey J/Mantes

Commissioner of Public Works

### ANNUAL REPORT

for the

CITY OF MILWAUKEE

RESIDENTS' PREFERERENCE PROGRAM

October 2005

#### SUMMARY STATEMENT

Section 309-41 of the Milwaukee Code of Ordinances requires that the Department of Public Works (DPW) submit an annual report to the Common Council summarizing the results of the previous year's Resident Preference Program activities.

The Resident Preference Program began in 1991. It mandates that a set percentage of all labor hours worked on Department of Public Works' formal public improvement contracts be performed by residents of a designated area of the city. The designated target district corresponds to the City's Community Development Block Grant Area. Since 1991, steady progress has been made employing target area residents on Public Works projects. From a modest start of 14.6% of the total hours worked on DPW contracts during the last quarter of 1991, target resident participation has grown to 31.5% for those 2004 DPW contracts fully closed out to date. Target resident participation in DPW contracts has more than doubled since the program's inception.

The following pages contain summary data covering the life of the Residents Preference Program. As this information illustrates, the Department of Public Works has, in the aggregate, always exceeded required participation levels. The required minimum percentage has been increased twice since the beginning of the program, starting at 14% in 1991 and rising to the current 25% in 1997.

The following pages also contain historical information regarding the certification of resident workers. The data shows that new people are regularly being added to the list of eligible participants. This demonstrates that the program is not static but rather achieves one of its primary objectives, that being the constant turnover of participants.

DPW has always partnered with community agencies to assist contractors in finding qualified resident workers. Initially the Central City Workers' Center performed this service. When it disbanded, Esperanza Unida stepped in. In 2003, the Milwaukee Urban League joined Esperanza Unida in providing resident certification services for the community. Late in 2004, Big Step Inc. also began providing resident certification services.

This year for the first time, DPW has tabulated the contract dollars flowing to target area residents as a percentage of the total wages paid on a project. In the past, wages paid to target area residents were shown in comparison to the total cost of the project. When viewed this way, it generally appeared that the overall amount of wages going to target residents was disproportionately low. That's because the cost of a typical contract includes more than just wages. Contract amounts also include the cost of materials, overhead, and profit. For 2004 closed contracts, wages paid to target residents equaled 28.8% of total wages paid. This is just slightly less than the 31.5% of total contract hours worked by target residents. This suggests that target residents may have been more concentrated in lower paying jobs than their non-target colleagues. But even

if true, this situation does not appear to be overly significant given the relatively close relationship between hours worked (31.5% of the total) and wages received (28.8% of the total).

# 2004 RESIDENT PREFERENCE PROGRAM SUMMARY DATA

## Department of Public Works Contracts

2004 Formal Construction Contracts	143
2004 Contracts Closed as of 9/30/05	69 <sup>1</sup>
Overall Resident Participation in Contracts w/ RPP Requiremen	t 31.5%
2004 Contracts with <25% Resident Requirement	10
2004 Closed Contracts with Actual Performance <25%	$21^{2}$
2004 Closed Contracts with Actual Performance >30%	32
Total Value of 2004 Formal Construction Contracts	\$ 131,252,449
Total Contract Value with <25% RPP Requirement	$$21,950,226^3$
% Contract Dollars with <25% Resident Requirement	16.7%

#### Resident Participation Summary

Year	Required %	Actual %	Total Contracts	Contracts Closed
1991	14%	14.6%	26	26
1992	14%	18.5%	210	210
1993	21%	21.3%	179	179
1994	21%	22.3%	197	197
1995	21%	25.4%	190	190
1996	21%	22.8%	190	190
1997	25%	26.2%	186	186
1998	25%	27.5%	187	187
1999	25%	27.6%	147	147
2000	25%	30.4%	127	127
2001	25%	26.1%	119	117
2002	25%	28.9%	136	132
2003	25%	27.7%	144	118
2004	25%	31.5%	143	69

<sup>&</sup>lt;sup>1</sup> Includes the 10 contracts for which there was no RPP requirement.
<sup>2</sup> Includes the 10 contracts for which there was no RPP requirement.
<sup>3</sup> 97.4% of this amount went to State funded contracts for which the City was prohibited from imposing RPP requirements.

### Certification of Resident Workers

Total Resident Workers Certified through 9/30/05 Total Resident Workers Eligible as of 9/30/05

2,159 1,965

New Resident Workers Certified by Year

Year	Number
1997	161
1998	205
1999	161
2000	136
2001	107
2002	112
2003	205
2004	202
2005 (thru 9/30/05)	125

If the current rate of new certifications holds for the remainder of the year, the total number of certifications this year will end up roughly 20% lower than during the past couple of years. But the number is still likely to be larger than for the first three years of this decade. The optimistic interpretation would be that the economy is improving and there are fewer unemployed residents of the target area in need of work.

#### CONTRACTS REQUIRING LESS THAN 25% RESIDENT PARTICIPATION

In 2004 there were 143 formal construction contracts entered into by the Department of Public Works. Ten of these formal contracts had resident participation requirements of less than 25%. In each case, the decision to reduce the normal resident participation requirement was either imposed upon the Department or was made after discussions with the Department's contracting division concerning the type and exact method of construction involved in the project. Whenever the resident participation requirement was set below 25%, it was done so for one or more of the following reasons.

- 1. The work involved was highly specialized requiring skills and experience not represented on the list of eligible workers and not likely to be found in the population of such potential workers. An example of this situation was the contract for water main joint rehabilitation. Experienced technical workers were required.
- 2. The contract was primarily for the purchase of equipment or materials. In either of these situations, the contract would result in relatively few, if any, labor hours. For instance, the Department awarded a contract to PDM Bridge for structural steel to be used in the new bridges to be constructed as part of the Canal Street project.
- 3. No local contractors performed the type of work required meaning that the contractor selected to perform the work would not be from this area. An example is the Department's annual contract for seal coating various city streets. A new method of seal coating has been used in recent years. This method is only performed by contractors located outside the Milwaukee area. Unique equipment and specially trained personnel are required to undertake the seal coat operation. There is no potential for local, newly hired employees to work on this contract.
- 4. The project was funded either totally or in large part from a source other than the City. When non-City grant funds are used for public improvements, the grantor generally prohibits the City from imposing economic development requirements that exceed the standards and requirements of the grantor. For example, the City received a State grant to undertake streetscaping work on Wisconsin Avenue. The State does not have a resident participation program and would not let the Department impose its program while utilizing grant funds. This category represents the largest dollar value of exceptions to the Department's normal resident participation standards. In 2004, projects with a total contract value of \$21,373,198 were not subject to the resident participation program because they were grant funded. This represents 97.4% of the overall value of those contracts for which the normal requirements were not imposed. If the Department had not been restricted by grant regulations, less than 1% of the contract dollars awarded in 2003 would have been exempt from the 25% resident participation requirement.

#### JOB CLASSIFICATIONS OF RESIDENT WORKERS - 2004

For the fifty nine (59) 2004 contracts that were closed out as of 9/30/05, the following jobs were filled by participants in the Residents Preference Program<sup>1</sup>.

Job Classifications	Number of Contract Jobs
Bituminous Lute Man	7
Bituminous Utility Man	14
Bottom Man	20
Carpenter	1
Cement Finisher	3
Electrician	2
Fence Builder	2
Finisher	4
Flager	1
Form Setter	4
Iron Worker	1
Laborer	165
Landscaper	10
Loader Operator	3
Mason	30
Operating Engineer	24
Overhead Door Installer	2
Pipe Layer	2
Raker	1
Roofer	12
Sheet Metal Worker	2
Steamfitter	8
Top Man	95
Truck Driver	97

Total: 24 Classifications 510 Contract Jobs

<sup>&</sup>lt;sup>1</sup> In 2004 there were a total of 143 contracts let by the Department of Public Works. The numbers shown on this exhibit necessarily do not include jobs associated with the 84 contracts still open as of 9/30/05,

### **UNEMPLOYMENT DATA**

#### (Comparison of 2004 and 2005 rates)

	<u>July 2004</u>	<u>August 2005</u>
United States	5.5%	4.9%
State of Wisconsin	4.7%	4.6%
Metro Milwaukee Area	5.0%	4.8%
City of Milwaukee	8.7%	7.1%
CDBG Area <sup>1</sup>	20.1%	16.4%

<sup>&</sup>lt;sup>1</sup> Block Grant Area unemployment numbers are estimates based upon the relationship between Citywide and CDBG Area rates in 2000. The 2000 census was the last time the actual unemployment rate for the Block Grant Area was measured.
