

Reply to Common Council File No. 071086  
From DOA-Budget and Management Division

January 8, 2009

Ref: 07012

Common Council File Number 071086 is a resolution authorizing the Department of Administration to enter into an agreement with Milwaukee County Automated Mapping and Land Information Systems to continue to provide professional and technical information services in the maintenance of cadastral maps and street address database.

The Steering Committee of Milwaukee County Automated Mapping and Land Information Systems (MCAMLIS) and the City of Milwaukee have entered into a series of agreements, authorized in Common Council Files 051467 and 061117. These agreements authorized the Department of Administration-Information and Technology Management Division (ITMD) to maintain cadastral maps and a street address database, with the associated costs incurred by ITMD reimbursed by MCAMLIS.

The attached resolution would establish a new agreement to cover the 2008 fiscal year. ITMD will continue to provide the services it is currently providing to MCAMLIS, and MCAMLIS will continue to reimburse ITMD for its costs. Entering into this agreement will ensure that both the city and Milwaukee County maintain cadastral maps and store data using the standard MCAMLIS Geo-database format. This not only facilitates intergovernmental sharing of data, it also enhances the capabilities of city applications, including MapMilwaukee and COMPASS, by providing more timely access to updated and consistent information.

The net fiscal impact of the agreement is zero. The estimated cost is \$76,977, with MCAMLIS paying 100% of these costs.

**RECOMMENDATION: ADOPT FILE NUMBER 071086.**
