Dear Mr. D'Amato:

We have enclosed two requests to change the current winter parking to the 2: snowfall parking rule on East Park Place. One is for the block between Newhall and Bartlett and the second is between Newhall and the end of the street. This second area includes one public parking space and a loading zone for the Urban Ecology Center, to safely load and unload children from our vans. As you remember on July 28, 2005 we hosted a neighborhood meeting to discuss parking. Twenty two people attended and there was unanimous consensus among those present that we needed to change the street parking situation in the winter. We have enclosed signatures of the residents on the street including the Fire Department Station Number. 27.

Sincerely,

Kenneth Leinbach

Dear Mr. D'Amato:

This letter is to officially request that the parking regulation be changed on Park Place along the North side of the street between Newhall and Bartlett to the 2" snow fall parking rule.

The signatures from the residents of this block and the Fire Department^{*} representative confirm their support for this change through their signature.
