TERMS AND CONDITIONS:

1. The initiation and accomplishment of the improvement will be subject to the applicable Federal and State regulations.
2. The Municipality will pay to the State all costs incurred by the State in Connection with the improvement which exceed Federal/State financing commitments or are ineligible for Federal/State financing. The Municipality's concurrence is required before award of the contracts for the improvement when the contracts exceed 5% of the estimate. The Municipality must also concur with contract modifications to contracts awarded by the State over \$25,000.00, unless the authorized representative of the State determines that a prompt change order is needed to preserve the work in progress, prevent extraordinary damage, avoid unreasonable and costly delay, or other extraordinary condition of necessity, safety or emergency exists. The authorized representative of the State shall provide notice of the prompt change order to the Municipality or its authorized representative as soon as practicable thereafter and the Municipality shall pay its share of the prompt change order cost.
3. Funding of each project phase (preliminary engineering, real estate, construction, and other) is subject to inclusion in an approved program. Federal aid and/or State transportation fund financing will be limited to participation in the costs of the following items as specified in the estimate summary:
  - (a) The grading, base, pavement, and curb and gutter.
  - (b) Catch basins and inlets for surface water drainage of the improvement, with connections to the storm sewer main.
  - (c) Construction engineering incident to inspection and supervision of actual construction work.
  - (d) Signing and pavement marking, including detour routes.
  - (e) Storm sewer mains necessary for the surface water drainage.
  - (f) Construction of new sidewalks and driveways, replacement of sidewalks and private driveways resulting from roadway construction.
  - (g) New installations or alteration resulting from roadway construction of standard State street lighting and traffic signals or devices.
  - (h) Real Estate for the improvement.
  - (i) Preliminary engineering and state review services.
4. Work necessary to complete the improvement to be financed entirely by the Municipality or other utility or facility owner includes the following items:
  - (a) New installations of or alteration of sanitary sewers and connections, water, gas, electric, telephone, telegraph, fire or police alarm facilities, parking meters, and similar utilities.
  - (b) Damages to abutting property due to change in street or sidewalk widths, grades or drainage.
  - (c) Conditioning, if required and maintenance of detour routes.
  - (d) Repair of damages to roads or streets caused by reason of their use in hauling materials incident to the improvement.
  - (e) Bridge width in excess of standards.
5. As the work progresses, the Municipality will be billed for and agrees to pay for work completed which is not chargeable to Federal/State funds. Upon completion of the project, a final audit will be made to determine the final division of costs and the Municipality agrees to pay any required reimbursement to the State.

6. If the Municipality should withdraw the project, it shall reimburse the State for any costs incurred by the State in behalf of the project.
7. The work will be administered by the State and may include items not eligible for Federal/State participation.
8. The Municipality shall at its own cost and expense:
  - (a) Maintain all portions of the project that lie within its jurisdiction for such maintenance through statutory requirements, in a manner satisfactory to the State and shall make ample provision for such maintenance each year.
  - (b) Maintenance of sidewalks and landscaping features along the project.
  - (c) Maintenance of lighting systems, to include energy.
  - (d) Maintenance of all features outside the travel lanes when additional pavement width is added at the request of the Municipality, with the exception of turn lanes.
  - (e) Prohibit angle parking.
  - (f) Regulate or prohibit all parking at locations where and when the pavement area usually occupied by parked vehicles will be needed to carry active traffic in the street.
  - (g) Assume general responsibility for all public information and public relations for the project and to make fitting announcement to the press and such outlets as would generally alert the affected property owners and the community of the nature, extent, and timing of the project and arrangements for handling traffic within an around the projects.
  - (h) Provide complete plans, specifications, relocation order, real estate plat, estimates, appraisals, and acquiring the parcels.
  - (i) Use the WisDOT Utility Accommodation Policy unless it adopts a policy, which has equal or more restrictive controls.
9. Basis for local participation: Local cost share for connecting highways is 25% for design. Construction of standard roadway items will be funded 100% State/Federal. Parking lanes are funding 100% Municipal and are calculated as a percentage of parking area compared to the total area of pavement. Parking percentage applies only to pavement items. Community Sensitive Design funds are to be used for enhancement features along the project limits. CSD funds have been inflated to 2012 dollars and are capped. There is no Municipal cost share for CSD funds.
