**To:** Ald. James A. Bohl, Jr.  
**From:** Tea Norfolk, Legislative Fiscal Analyst – Lead  
**Date:** November 15, 2016  
**Subject:** Audit on Water Additives

---

This memo is in response to your request to identify outside firms that conduct audits of public water systems.

In 1994, Milwaukee Water Works had an independent audit conducted on its lead and copper corrosion control procedures. The report was prepared as a joint effort among Milwaukee Water Works, Wisconsin Department of Natural Resources, Wauwatosa Water Utility, CH2M Hill, and the University of Illinois.

Any engineering consulting firm that specializes in drinking water treatment could conduct an audit of a public water system. Following is a brief list of firms offering this service:
