

MILWAUKEE OVERDOSE
MORI
RESPONSE INITIATIVE

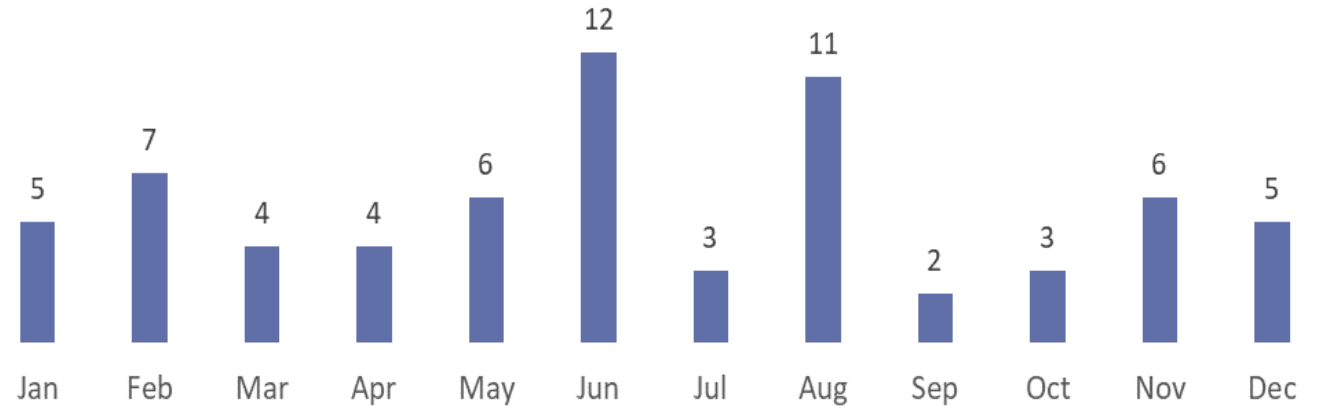

The MORI team made **4,459 contact attempts** to a total of **2,045 unique clients** following an overdose. While many attempts were **unsuccessful (57%)**, due to incorrect information or no answer at the residence, the MORI team **engaged a total of 616 (30%) unique clients** and **engaged 200 (32%) family/friends of unique clients**. In total, the MORI team had **some** contact, whether individually and/or with family/friends, with **40% of all unique clients**.

In March of 2022, contact attempts and successful contacts began increasing significantly following the addition of second MORI vehicle.

TREATMENT REFERRALS AND RESOURCES

A total of **68 engaged clients** accepted the MORI team's referral to treatment. Month-to-month, the percent of clients enrolling in treatment ranged from 4% to 16%

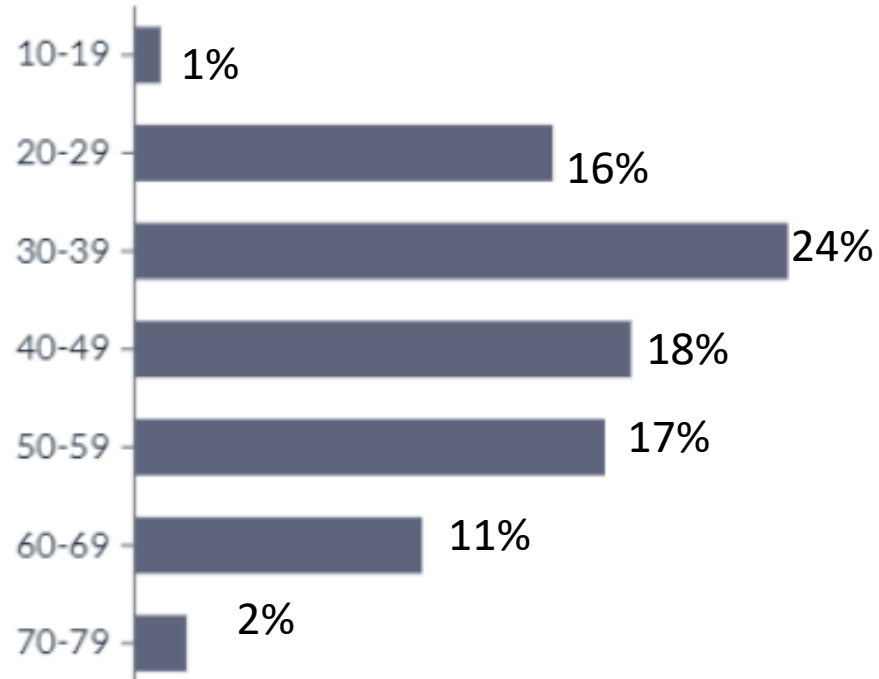

The MORI team, with assistance from partnering agencies, distributed more than 7000 treatment resources , family support resources, business cards, and harm reduction items (naloxone, fentanyl test strips, referral to needle exchange program).

Since the start of this program in 2019, **221** clients have been directly linked to treatment

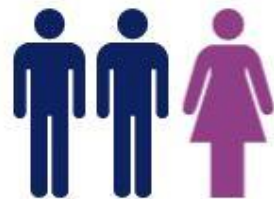

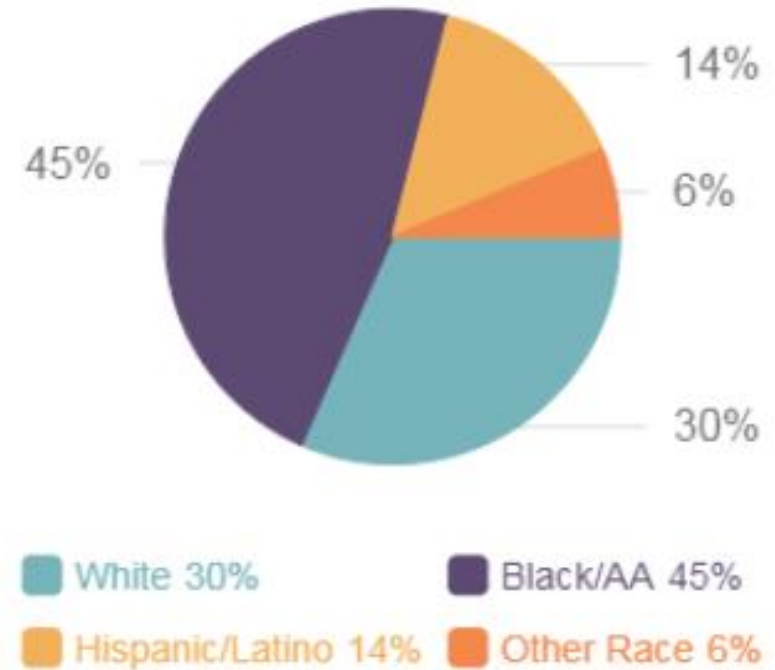

DEMOGRAPHICS

January 1, 2022 – December 31, 2022

MORI Clients by Age

MORI Clients by Race and Ethnicity

62%
of MORI Clients are Male

BARRIERS TO TREATMENT REFERRALS

Clients that were engaged by the MORI team declined services for a variety of reasons. The MORI team documented conversations with clients, family, and friends in report narratives. These narratives give insight into the many reasons why an individual decides against treatment referrals.

While there were 68 clients that received a direct referral to treatment by the MORI team in 2022, others stated that they were already engaged in treatment or would seek treatment on their own using the resources provided by the team.

Denied substance misuse, recent overdose, or the need for treatment

No desire to seek treatment, already engaged in treatment, or will seek treatment on their own

Personal barriers (family/children, insurance, work responsibilities, etc.)

HARM REDUCTION AND PREVENTION VENDING MACHINES

Fund Source

The State of Wisconsin Department of Health Services received State Opioid Response (SOR) funds from the Substance Abuse and Mental Health Services Administration (SAMHSA).

Partners

- Vivent Health's Lifepoint program
- HRI Vending

Project

Twenty-five vending machines have been purchased and will be disseminated to agencies across Milwaukee County over a three-year period from 2023 to 2025.

Eligibility:

- Located in Milwaukee County
- Maintain Vending Space
- Adequate Space
- Engage Surrounding Community
- Communicate with Project Partners
- Manage Vending Machines and Supplies
- Letter of Support
- Attend Free Training

Dates

Tuesday, February 21 from 3:30 pm to 5:30 pm

Thursday, February 23 from 10:00 am to 12:00 pm

Goal

Our goal is to maximize the impact of opioid settlement funds by regranting to organizations with innovative ideas to address the opioid crisis.

Platform

Conversations will be held via Zoom and you can join by video or phone. Look out for a confirmation email that includes the Zoom link and additional information.

Regranting

These conversations are not required to apply for regrant settlement funds and are not a part of the application process.

Milwaukee County Virtual Community Conversations!

Regranting Opioid Settlement Funds

Milwaukee County Behavioral Health Services wants to hear from you! Join these virtual community conversations to discuss the best ways to prevent and treat drug use across Milwaukee County.

Who's invited?

Milwaukee County residents and community-based organizations who would like to partner in this work. Individuals and groups are welcome.

Where's the conversation?

Conversations will be held via Zoom. Join by video or phone.

[CLICK HERE](#) to register!

Watch for a confirmation email that includes the Zoom link and additional information about the community conversations after registering.

What's the goal?

To maximize the impact of opioid settlement funds by regranting to organizations with innovative ideas to address the opioid crisis.

These conversations are not required to apply for regrant settlement funds and are not a part of the application process.

Facilitated by Jeremy Triblett
Prevention Coordinator
Community Access to Recovery Services

When do we join the conversations?

Tuesday, February 21st from
3:30 pm to 5:30 pm

Thursday, February 23rd from
10:00 am to 12:00 pm

Date

Monday, March 6 from 9am to 3pm

Goal

We're inviting prevention specialists, recovering people, community members, and program partners to celebrate the 2022 Better Ways To Cope campaign year. Together, we will remember those who lost their lives to substance use, attend presentations by community-based organizations, network during lunch and identify opportunities to collaborate, leverage expertise and measure our impact!

Location

True Skool: 161 W Wisconsin Ave UNIT 1000,
(Below TJ Maxx) Reduced Parking Available.

LITIGATION FUNDS

Milwaukee County: CARS

- 19 Municipalities (Milwaukee is only one of them)
- More defined focus on treatment
- Various funding streams re-granting process
- Harm reduction vending machines

- Referral mechanism for both agencies
 - Working to eliminate COOP-ATITION
- HOPE Kits – contributions from both to be distributed to community members
 - Leveraging resources
 - Begin and end with the community

City of Milwaukee Health

Department: END OVERDOSE MKE

- MORI
- Harm reduction training and distribution
- RFP for consultant to act as a strategic partner
- Working with the recovery community
- Targeted neighborhood approach

CITY OF
HEALTH DEPARTMENT

END OVERDOSE MKE

2 RFP'S TO BE POSTED 2/10 TO PARTNER WITH MILWAUKEE AGENCIES TO FUND PROJECTS TARGETING UNDERSERVED AREAS IN MILWAUKEE WITH LIMITED RESOURCES AND HEALTH DISPARITIES

- Consultant for a strategic partner with City of Milwaukee for various deliverables including:
 - Community events
 - Annual overdose prevention summit
 - SDoH and SUD website
 - Communication efforts to various populations in a culturally competent and sensitive manner
- Bridge housing grant to expand/increase bed availability in underserved Milwaukee communities

WHAT ELSE?

- MHD HEALTH STRATEGY TEAM AND DATA TEAM ARE WORKING CLOSELY TO USE DATA TO INFORM EFFORTS
- USE FATAL OD DATA TO ANALYZE SUBSTANCE TRENDS AND DEMOGRAPHICS WITHIN THE CITY OF MILWAUKEE
- LAYERING OD DATA WITH LOCATIONS WITHIN MILWAUKEE TO IDENTIFY POTENTIAL PARTNERS FOR DISTRIBUTION
 - GAS STATIONS, CONVENIENCE STORES, LIQUOR STORES, ETC.
- WILL ASSIST IN INFORMING EFFORTS WITH THE CONSULTANT
- HARM REDUCTION INTERN & COORDINATOR TO INCREASE CAPACITY FOR EDUCATION AND DISTRIBUTION EFFORTS

Narcan and Fentanyl Test Strip Trainings

YOU WILL LEARN:

- The need and use for Nasal Narcan and Fentanyl Test Strips
- What to do when an overdose is suspected
- How and when to administer the medication
- How to use Fentanyl Test Strips
- Steps to take after administration

No individual prescription needed
No payment or insurance required

Each individual has the option to attend a formal 30-minute presentation or an informal 15-minute presentation on the administration of Nasal Narcan and Fentanyl Test Strips.

Following the training each participant will receive a **FREE 2-pack of Nasal Narcan** and a few **Fentanyl Test Strips**.

UPDATED NARCAN GRAPHIC

CÓMO USAR NARCAN®

1. LLAME AL 911 DE INMEDIATO

2. QUITAR LA ENVOLTURA

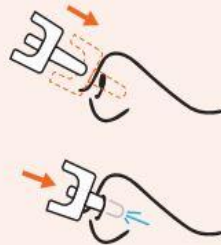

Saque el paquete de la caja y retire el papel aluminio para abrir el dispositivo de pulverización nasal NARCAN. Sostenga el dispositivo con el pulgar en la parte inferior del émbolo y dos dedos a cada lado de la boquilla.

3. INSERTAR Y ROCIAR

Inserte la punta de la boquilla en cualquiera de las fosas nasales hasta que sus dedos toquen la parte inferior de la nariz de la persona. Presione el émbolo firmemente para administrar el spray.

- * Si la persona sigue sin responder después de 2 o 3 minutos, administre otra dosis.

4. REALIZAR RESPIRACIONES DE RESCATE ENTRE DOSIS

Incline la cabeza de la persona hacia atrás, pellizque la nariz y respire en su boca para ayudar a restaurar la respiración. Continúe hasta que la persona pueda respirar por sí misma o hasta que llegue la ayuda médica.

De una respiración cada 5 segundos.

HOW TO USE NARCAN®

1. CALL 911 IMMEDIATELY

2. REMOVE FROM PACKAGING

Remove package from box and peel back foil to open NARCAN® nasal spray device. Hold the device with your thumb on the bottom of the plunger and two fingers on either side of the nozzle.

3. INSERT AND SPRAY

Insert the tip of the nozzle in either nostril until your fingers touch the bottom of the person's nose. Press plunger firmly to administer spray.

- * If the person is still non-responsive after 2-3 minutes, give another dose.

4. PERFORM RESCUE BREATHS BETWEEN DOSES

Tilt the person's head back, pinch the nose, and breathe into their mouth to help restore breathing.

Continue until person can breathe on their own, or until medical help arrives.

Give one breath every 5 seconds

VISIT [MILWAUKEE.GOV/OPIOIDS](https://www.milwaukee.gov/oids) TO LEARN MORE

FENTANYL TEST STRIP GRAPHIC

ADVERTENCIA DE FENTANILO

Sus drogas puedan contener fentanilo:

Se encuentra en sustancias como heroína, cocaína, metanfetamina y aún en forma de pastillas

Puede poner a Ud. en mayor riesgo de sobredosis y la muerte

Solicite Tiras de Prueba de Fentanilo al 414-286-2164 o correo electrónico HarmReduction@milwaukee.gov.

Cómo evitar una sobredosis:

No consuma la droga a solas (si lo hace, que sea con precaución)
Contacte Never Use Alone: 1-800-484-3731 o NeverUseAlone.com

Prueba: Saber si sus drogas contienen fentanilo le puede disminuir el riesgo de sobredosis

Comience con una cantidad pequeña (vaya despacio)
El fentanilo es una droga opioide increíblemente potente

Mire y espere antes de que la próxima persona use

Tenga Narcan a la mano
Asegúrese de que otras personas sepan dónde está

Una sobredosis de opioides es una emergencia médica - Llame al 911 de inmediato

milwaukee.gov/opioids

FENTANYL TEST STRIP INSTRUCTIONS

FOR ALL TESTS:

Prep what you plan to use and set it aside

Leave residue in baggie or cooker

STEP 1: Add water PILL OR POWDER TESTING

Add 10 drops of sterile water to the empty baggie with residue or to your cooker after your shot has been drawn and then mix well.

ONLY METH & MDMA

Drop cooker/baggie with residue into a shot of water

When testing methamphetamine or ecstasy/molly, you need a larger amount of water: a shot glass amount - a half of a cup.

STEP 2: Test

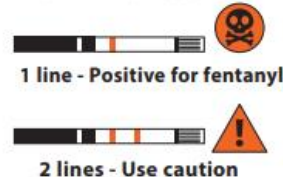

Hold the blue end of your test strip and dip into the water for 15 seconds. Be sure you only dip up to the wavy lines.

STEP 3: Wait

Wait two minutes until you can see lines show up in the middle.

STEP 4: Results

1 line - Positive for fentanyl

2 lines - Use caution

Read your test results. One line means that your drugs have fentanyl in them.

No drugs are 100% safe.

FENTANYL WARNING

Fentanyl may be in your drugs:

Found in substances like heroin, cocaine, meth and even in pill form

Can put you at greater risk for overdose and death

Request Fentanyl Test Strips at 414-286-2164 or email HarmReduction@milwaukee.gov.

How to avoid an overdose:

Do not use alone (if you do, be safe)
Contact Never Use Alone: 1-800-484-3731 or NeverUseAlone.com

Test: Knowing if your drugs contain fentanyl can lower your risk of overdose

Start with a small amount (start low, go slow)
Fentanyl is an incredibly potent opioid drug

Watch and wait before the next person uses

Have Narcan ready
Make sure other people know where it is

**An opioid overdose is a medical emergency
Call 911 right away**

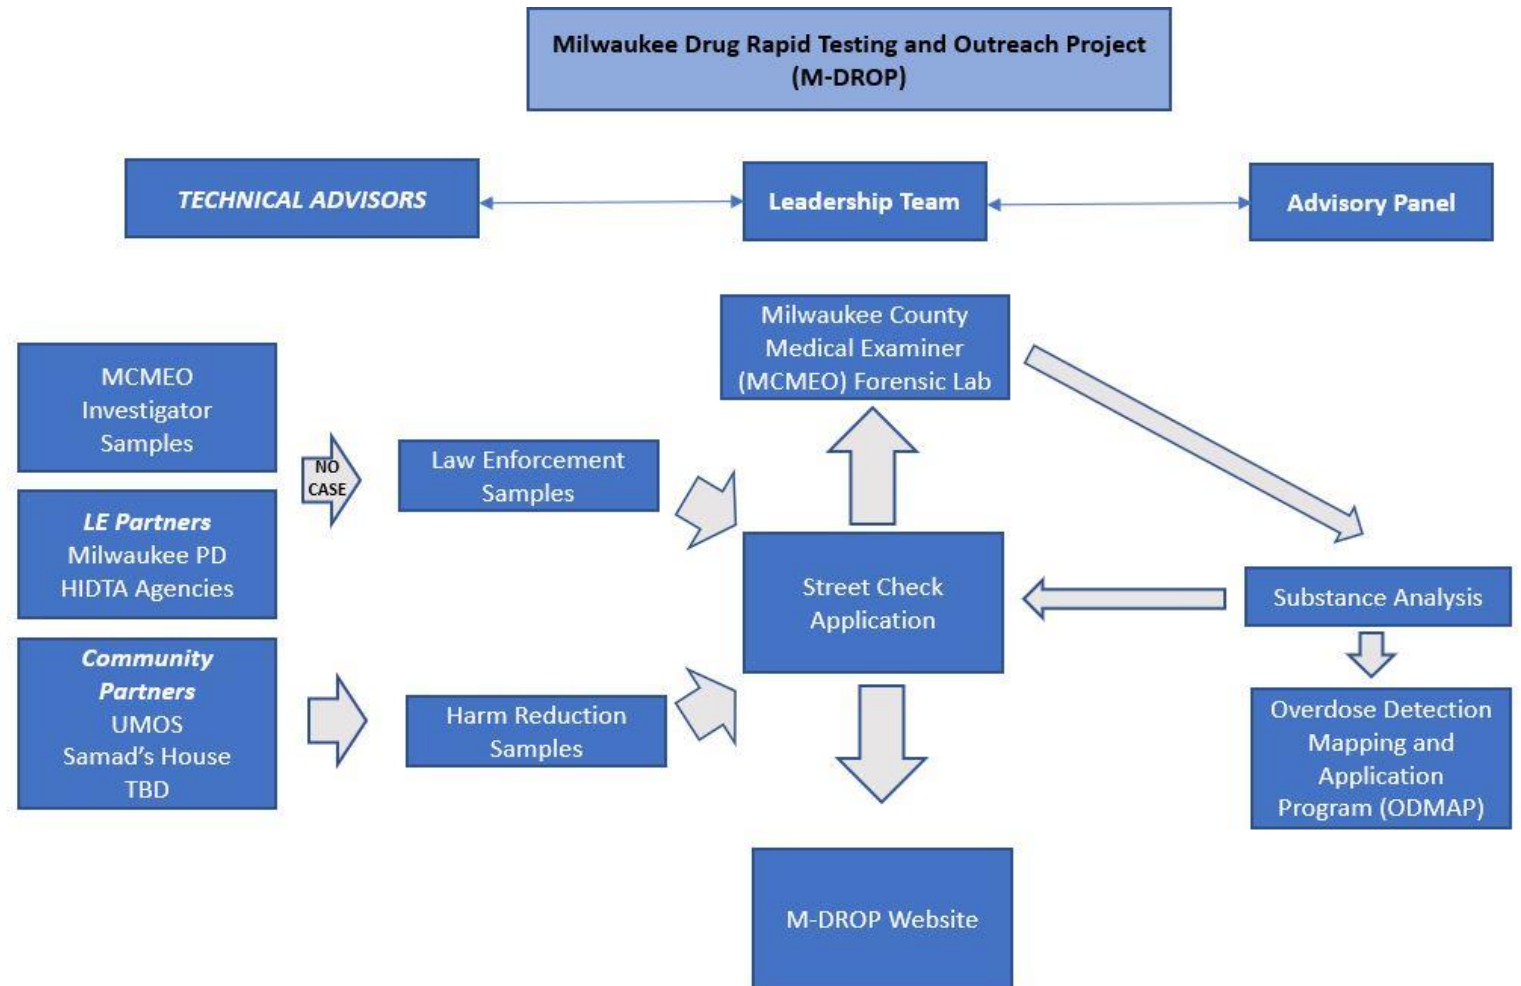

milwaukee.gov/opioids

MILWAUKEE DRUG RAPID-TESTING AND OUTREACH PROGRAM (MDROP)

BJA COSSAP 2022

- Partnership with Medical Examiners Office, CDC Foundation, HIDTA, and community agencies
- 1.6 million over 36 months
- Near-real time analysis of substances in the community with partnership & collaboration

NEXT STEPS

- COMMUNITY ADVISORY BOARD (CAB) - WORK WITH COMMUNITY PARTNERS TO WORK TOWARDS A COMMUNITY ADVISORY BOARD TO ASSIST THE CITY OF MILWAUKEE ON SUD AND OD PREVENTION PROJECT & PROGRAM DECISION MAKING.
- MEDICATION ASSISTED TREATMENT (MAT) – COLLABORATE WITH PARTNERS TO INCREASE ACCESS TO AND EDUCATION OF MAT WHILE WORKING TOWARDS REDUCTION OF STIGMA IN THE COMMUNITY.
- PURCHASE NASAL NARCAN TO CONTINUE TO INCREASE ACCESS AND DISTRIBUTION ABILITIES – POSSIBLE PARTNERSHIP WITH TBMM ON ALLOCATING NARCAN TO PHARMACIES FOR DISTRIBUTION WHEN COMMUNITY MEMBERS UTILIZE TBMM BOXES.
- CONTINUE TO LEVERAGE OUR PARTNERS TO NAVIGATE MILWAUKEE'S PREVENTION EFFORTS
