Hi,

I am writing as a resident of Milwaukee opposing the proposal for a data center at 5825 W Hope Ave. or anywhere within city bounds. Data centers have been proven to harm local waterways, not increase jobs held by locals after construction is finished, and to increase residents' energy bills. A data center could potentially directly harm anywhere from thousands of to all Milwaukeeans.

While I know the proposal was removed from the meeting tomorrow, the Planning Commission must know that Milwaukeeans are not in favor of a data center anywhere.

Best,
Madelyn Davenport
A Milwaukee Resident
