Subject: Rivianna project on South Water St.

Dear Linda Elmer, I will not be able to attend the meeting on July 3rd concerning this project and would appreciate you forwarding this message to committee members, Mchael Damato, Willie Wade, Michael Murphy, Ashanti Hamilton, and Robert Bauman. My concern is this; our river front is Milwaukee's largest asset and the developement of it should be carefully reviewed. There is a sense of cohesiveness in the 3rd Ward that is lacking in Walker's Point. This project in and of itself should not be a project in and of itself but fit into a master plan of this new hot spot of new developement alongside historic renovation. It is not a copy of the 3rd Ward nor should it be, but some master plan should be forthcoming or this neighborhood will become irreversably disjointed in any aesthetic sense. Please use your discession wisely. Too many mistakes scar our city allready. I am not opposed to developement here , but it must fit in to a larger context. Thank you,
Sincerely Douglas Qui gley
