

Community Medical Services offers substance use treatment programs that include outpatient medication-assisted treatment, individual counseling, and group counseling.

On a community level, we provide no-cost educational in-services on how to integrate medication-assisted treatment into your existing programs or partnerships.

OUR APPROACH IS BASED ON CURRENT SCIENCE AND EVIDENCE, WHICH CONCLUDES THAT OUTPATIENT MEDICATION-ASSISTED TREATMENT, ALONG WITH COUNSELING SERVICES, IS THE MOST EFFECTIVE FORM OF TREATMENT FOR INDIVIDUALS WHO ARE EXPERIENCING SUBSTANCE USE NEEDS.

90% of individuals served by CMS who reach the 2-year mark in treatment consistently test negative for opiate use.

1/3 of all CMS patients are being tapered off of methadone at any given time.

Mission

Our mission is to help those who are suffering from substance use disorders. We consider these people our patients, and our singular aim is to **help them heal**. We're proud that our clinics provide our patients an environment that is **free of judgment** and condescension and we're steadfast in treating everyone with the utmost **dignity and respect**.

Vision

Leading the change to eliminate the consequences of substance use disorder in our communities.

Values

We see challenges as opportunities to demonstrate initiative.
We listen to and honor the reality of those we serve.
We are evangelists for practices grounded in science and evidence.
We value people who are **passionate about making an impact**.

In partnership with 

CMS will provide onsite services to the people already being served by the WCS Hub and Spoke Program.

- Services: MAT, counseling, medical, and nursing
- Operating 4 hours per day during daytime hours
- Approximately 150 people currently served by WCS will *immediately* benefit from these services
- A navigator will monitor the parking lot in collaboration with WCS security

All people will be served with dignity, respect, and inside the WCS building!
