**Subject:** Rivianna project

Dear Michael,

I wanted to give my dissent to the projected Rivianna project. I am against granting a height variance to that section of the river. Giving any height variance will open pandora's box for future development to take away the view for most due to large obtrusive buildings. I am not against development but there must be a plan to develop this prime property not piece-meal development.

Please vote to table this until we can hold some public meetings.

Regards,

Victor C. Ray
