===== Local Market Definition =====

The local market value for your 2000 Toyota Corolla CE 4 Door Sedan was defined by ZIP code 53104 -- Bristol, WI. Adjacent markets were also searched as secondary sources to locate comparable vehicles. Details of the specific markets searched follow.

The State of Wisconsin is composed of 7 distinct local markets. The following 1 local market was used in the preparation of this Market Valuation Report.

Milwaukee, WI - Primary local market vehicle database.

In this market, CCC maintains a database of 5,180 inspected dealer vehicles located at 33 dealerships, and 14,559 dealer advertised, and 7,790 privately advertised vehicles taken from 24 local papers or magazines. This local database also includes 2,358 vehicle valuations researched in the last 90 days.

From this 1 local market, comparable vehicles were selected based on the year, make, model, body style, and engine configuration of your vehicle. Adjustments were made to the value of each comparable vehicle to compensate for differences in year, model, body style, engine configuration, packages, options, and mileage.

For your vehicle's Market Valuation Report, CCC identified 6 inspected dealer vehicles and 2 advertised vehicles as most comparable to your vehicle, and used their values to determine the Local Market Value.

Vehicles are determined to be comparable to the loss vehicle based on:

- * Nearness to the loss vehicle's primary garage location
- * Similarity of model, equipment, and odometer
- * Precision of the data (inspected versus advertised)

valuation request: 29854562 (continued) 2000 TOYO COROLLA CE

===== Valuation Methodology =====

This Vehicle Market Value Report was prepared for American National Prop & Cas by CCC Information Services Inc. CCC has been preparing Market Valuation Reports for the insurance industry since 1981. CCC physically inspects vehicles for sale at vehicle dealerships in the local markets, and subscribes to local newspapers and automotive publications in these markets. CCC maintains vehicle databases containing these inspected dealership vehicles along with the dealer and private party advertised vehicle information.

When American National Prop & Cas requests a Vehicle Market Value Report from CCC, they provide CCC the VIN (Vehicle Identification Number) of the loss vehicle. Decoding this VIN identifies the exact vehicle for which the local market value will be done. See the Vanguard Vehicle Identification section.

American National Prop & Cas also provides CCC the vehicle owner's zip code. This identifies the local market that will be used to determine the market value. See the Local Market Definition section.

Finally, American National Prop & Cas provides CCC with the configuration of the loss vehicle including equipment, odometer, condition, maintenance, etc. This information is the starting point for determining the local market value.

Using this information, CCC searches its databases to find comparable vehicles in the local market. Each vehicle is compared to the loss vehicle, and adjustments are made for differences in model, equipment, and odometer. Those vehicles that are deemed most comparable to the loss vehicle are used to determine the local market value. See the Local Market Definition section.

After the Adjusted Value for each comparable vehicle is calculated (see the Local Market Comparable Vehicles section), CCC calculates the Local Market Value. This calculation is a weighted average. Using a weighted average allows those vehicles most similar to the loss vehicle to contribute a greater percentage to the Local Market Value than less similar vehicles. Factors that determine similarity are:

- * Nearness to the loss vehicle's primary garage location

- * Equivalency of model, equipment, and odometer
- * Precision of the data (inspected versus advertised)

Using a weighted average results in more accurate local market value as the vehicles most similar and closest to the loss vehicle contribute more to the market value than less similar, more distant vehicles.

valuation request: 29854562 (continued) 2000 TOYO COROLLA CE

===== Vehicle Condition =====

American National Prop & Cas uses Condition Inspection Guidelines to determine the condition of key components of the loss vehicle. These guidelines are specific to geographic location, year, and vehicle type. The guidelines describe physical characteristics for each of the components. Based on these guidelines, American National Prop & Cas determines the condition of the vehicle prior to the loss.

===== Vehicle Model Information =====

The Toyota Corolla continues as one of the best compact sedans available on the market. The 2000 version is not much different than the 1999 version, except for some changes to its engine. The present generation Corolla is the largest and most powerful yet. The compact Corolla shares its design and powertrain with its cousin, the Chevy Prizm, and both are produced at the same California plant. This compact 4-door sedan is offered in base VE, CE, and upscale LE trim levels. All versions are powered by an all-aluminum 4-cylinder, 1.8-liter, 120-horsepower engine that delivers good power and

excellent fuel economy. The suspension is tuned more towards comfort rather than sporty handling. Road imperfections are absorbed well, but high speed turns produce excessive body roll. The Corolla has endured many changes since its introduction in 1968, and it has become one of the best-selling cars of all time. It is not the least expensive compact sedan on the market nor is it the most expensive. The high levels of safety and refinement, offered on the Corolla, usually don't come at this price level. This, along with Corolla's unsurpassed durability and reliability, make the Corolla an excellent value in a compact sedan.

===== NHTSA Recall Notices =====

The National Highway Traffic Safety Administration has issued 1 safety related recall notice that may apply to the above valued vehicle. For additional information or assistance, call CCC customer service at 1-800-621-8070 and follow the automated operator's instructions. Please use your valuation request number for reference.

NHTSA ID: 00V252000 Issued: 08/30/2000 No. of vehicles: 33,821
Vehicle Description: Passenger vehicles fitted with speed control devices at Gulf States Toyota's Vehicle Processing Center or installed by certain Toyota dealers in Gulf States' region (Arkansas, Louisiana, Mississippi, Oklahoma, and Texas). The E-clip which holds the speed control assembly to the accelerator linkage could break. If the E-clip fails, the speed control attachment could come off, causing the speed control to stop working.
The loose attachment could cause the accelerator to stick, preventing normal stopping and handling of the vehicle.
Gulf States dealers will replace the E-clip with a cotter pin. Owner notification is expected to begin during September 2000. Owners who take their vehicles to an authorized dealer on an agreed upon service date and do not receive the free remedy within a reasonable time should contact Gulf States at 1-800-444-1074. Also contact the National Highway Traffic Safety Administration's Auto Safety Hotline at 1-888-DASH-2-DOT (1-888-327-4236).

Total Claim: \$6,396.22
Company Portion: \$6,146.22
Insured's Deductible: \$250

Dear Dawn:

Per our conversation on October 15, 2002, you accepted liability for this loss. The total property damage as well as the loss paid by the American Family Mutual Insurance Company are stated above. Reimbursement should take into consideration the total amount of the loss, including our insured's interest.

Mrs. White has not decided if she is going to utilize for Medical Expense coverage available on her policy. If American Family Mutual Insurance Company makes any payments off the Medical Expense coverage, we reserve the right to subrogate for that loss as well.

Respectfully,

Joel J Rogers

CLAIM NUMBER: 00-101-327913 DATE: 9-30-02

To confirm our conversation, and based on your disclosure of a/an CLEAR / NON BRANDED title, I am enclosing the necessary papers which concern the total loss of your vehicle.

Based on a visual inspection of your 196 Chrysler VIN # 1H26H687 and the title disclosure stated above, its value at the time of loss was \$ 8805.00, less deductible of \$ 250.00. Our net payment to you will be \$ 8555.00. You are entitled to sales

tax reimbursement of 5.6 % once we receive proof of purchase of a replacement vehicle. Tax will be paid based on the cost of the replacement vehicle up to the value of your previous vehicle. Sales tax reimbursement does not apply to lease agreements, unless you replace your owned vehicle with a leased vehicle. Available Tax up to \$493.08

To accept, sign the forms where indicated and return in the envelope provided.

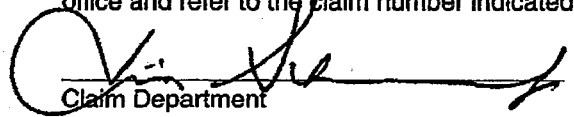

THE FORMS CHECKED BELOW SHOULD ALL BE SIGNED AND DATED WHERE INDICATED.

- Proof of Loss/Statement of Claim
- Release
- Vehicle Brand Disclosure Statement (WI. MV 2848)
- "Certificate of Title" to your vehicle, signed by all persons named as owners. Please sign where it says "Signature of Seller," just as name(s) appear printed on the title. Please fill in the current odometer mileage in the space provided on the title. The odometer now reads 32626 miles/kilometers. (Note: If a lien appears on your title, the lienholder will be named as co-payee on the settlement draft.)

For sales tax reimbursement, please send a copy of your proof of purchase (showing purchase price and tax paid), or a copy of State Form MV-1 which shows the amount of tax you paid to the State.

Our Company will pay towing and storage charges through 10-30-02. Charges beyond that date will be your responsibility. If you have not already done so, please remove your license plates and only your personal property from your vehicle as soon as possible. **If you did not leave keys with your vehicle, please include a set with your title.**

Please return the above items in the envelope provided. If you have any questions, please contact our office and refer to the claim number indicated at the top of this form.
