To the Honorable, the Common Council

Re: Water Easement WE-881

Dear Council Members:

Submitted herewith is the above designated water main easement for your authorization as to execution. The Milwaukee Water Works intends to relay an existing water main in South Burrell Street between East Norwich Street and East Van Norman Avenue (CC #981613, 3/23/99). The proposed water main will cross Wisconsin Electric Power Company property at a point north of East Waterford Avenue, and therefore requires an easement. WEPCO and the City of Milwaukee have jointly drafted the submitted easement document.

We have prepared the attached resolution authorizing and directing the proper City officers to execute water easement, WE881. Wisconsin Electric Power Company has requested a fully executed original for their files. Two copies of the Easement are therefore attached for execution.

We recommend adoption of the attached resolution.

Very truly yours,

Carrie M. Lewis, Superintendent
Milwaukee Water Works

Mariano A. Schifalacqua
Commissioner of Public Works
