Scissors the were cutting off my Toes
Because the were Dead the final Resulted
in my Being Entubated 6 Times and
placed on a Ventilator in just one year

Do to the City Pipe Bursting

I was already Feeling Melancholy
and I had been crying that day

Due to it Being the 2 Year Anniversary
on the Unispected Death of my mom

in her sleep while I was in the
Hospital you may wonder why I had every
thing so precious to me down in the

Basement while we have been at 3919 N. 42nd
St. in August 2022 which start off

With someone Breaking in and totally
destroyed it because they couldn't sleep
it so I couldn't go back to the

old house to get the rest of our things
so what was lost there anyway all my

things were stored in our Basement because
these 3 years I was in the hospital 12

surgeries to family I lost both my legs
the had to be amputated so I never

got the chance to unbox anything

I also lost my mom & sister 4 months
apart so this is why really a whole

my sister's personal effects (Deceased)

All my pictures & can never get
back my children's baby pictures
