

January 8, 2009

To the Honorable  
Common Council  
City of Milwaukee

Dear Council Members:

The Facilities Development and Management Section has computerized security systems and various digital field control units which operate and monitor the card access system for the Municipal Building, City Hall, 809 Broadway Building, and numerous outlying buildings. We also operate a CCTV network throughout the Downtown Complex and at some outlying buildings.

Building modifications and changing security needs require changes to be made to the Card Access Systems and CCTV networks to control new and modified equipment

The original Card Access Computer System and CCTV networks were installed and are serviced by Toepfer Security Corporation. It would, therefore, be in the best interests of the City of Milwaukee to procure the necessary equipment, materials, and services to make required modifications to the Card Access Computerized Systems and CCTV networks from Toepfer Security Corporation in order to provide compatibility of equipment and undivided responsibility for maintaining and servicing the equipment.

We, therefore, respectfully recommend the adoption of the attached resolution authorizing the Commissioner of Public Works to procure the necessary equipment, material, and services to make required modifications to the Card Access Computerized Systems and CCTV networks from Toepfer Security Corporation during 2004.

Sincerely,

venu J. GUPTA, Director  
Buildings and Fleet Services

Commissioner

MARIANO A. SCHIFALACQUA,

Department of Public Works
