Subject: bio

Here is the Bio information for Jayme Montgomery Baker, I am waiting on one more.

The State Director of the Wisconsin League of Young Voters Education Fund, 28 year-old Jayme Montgomery Baker is still a young and talented organizer within Wisconsin community. Her efforts to organize communities of color have helped protect Milwaukee's public utilities, and increase young people of color's access to elected officials. She is the recent winner of the Midwest Environmental Advocates Lighting Rod Award. Her work has appeared in numerous media outlets including Time Magazine and The Milwaukee Journal Sentinel. She even held her own against nationally syndicated shock jock Mancow while defending the WI-League's effort to take on a local mall's anti-youth policy. *"There is a place for everyone in the movement, but not every place is for every one,"* says Jayme. *"One of the goals of the League is to help people find their place in life and the struggle. We are about transforming the world and the people that live in it."*

Volunteers are always welcome. We are open from 9AM-5PM Mon.-Fri. Upcoming event is the DMZ Garden Open House and Block Party on 9th and Ring St. from 11AM-4PM. Or catch us at Juneteenth (June 19th) in front of the Burger King!
