Dear Common Council,

I keep writing but none of you listen. As a Retiree my Health Ins. will be raised 20% beginning 11/01/06. Mike Brady says I am saving money & that I am writing for your intervention. He & 3 consultants decided to hire Blue Cross-Blue Shield in place of WPS who had been doing a good job. Today's USA Newspaper showed Blue Cross-Blue Shield was sued for not paying their doctor bills.

I question Mike Brady & his consultants if they are saving us money why am I getting a \$60 a month increase which I can hardly afford. Secondly, is somebody getting a pay back or is that somebody poor in handling bargaining.

Your intervention is requested ASAP & please do not sign the new contract until you investigate thoroughly.

A Reply is Requested please.

Shirley Jacobson, R.N.
