Subject: NO DATA CENTERS IN MILWAUKEE

[Some people who received this message don't often get email from amberwest312@gmail.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

Dear Commission,

As a Northside resident, I am appalled by the proposed data center. This specific part of town has recently lost several fresh food super markets and pharmacies. This specific part of town has some of the highest crime and homicide rates in the city. We need funding into our social services like libraries, grocery stores, community centers, non-profits, public parks, accessible bus lines and more. Please do not put our neighborhood, our community, and our planet at risk for the sake of money. Please invest in our community health and safety. Please invest in our youth. Please do not allow data center to come here and drive up the price of electricity and siphon one of the great lakes. Please do not allow this plan to go through.

Thank you,
Amber West
