Construction of three concrete steps, between the sidewalk and curb in line with the entrance to a new addition. The proposed steps are shown in the attached drawings, SP-01 and SP-02.

The construction of these steps is being requested in response to changes in sidewalk elevations that will be part of the building addition project. The intent is to provide direct access to the building entrance for a person being dropped off in front of the building.

The proposed steps were discussed with City Engineers Ron Sweet and Ghassan Korban on March 18, 2002.
