My name is Tukira H. Patterson. I live at 4026 N. 1st Street Apt 3 Milw, WI 53216. On December 1st of 2004 Around 7:00pm I had just lefted my house. Once I returned home Around 11:00pm. I noticed that every single light in my house was turned on. An that my Blinds in my kitchen were knocked down and my bedroom Blinds had fallen as well. So we and my kids are still sitting in the car in our parking lot of our Apartment. Im trying to decide if I shall try entering the house. So we finally gets out of the car and heads towards my back door. Im trying to get into my back door but it will not open at all. I then realize my kitchen is complete trashed and I then notice that there's my kitchen chair prompting my door up and not letting me entering.

So we walks around to the front of the building goes in through the main door. I enter the hallway were my living room door is and notice that there's a shoe string attached from the inside to outside of my door nob. I then enter my apartment and notice that my whole entire little Apartment's trashed just by standing in the living room. Everything was turned up side down, all my cabinets in the kitchen were open and some can goods were on the floor. My closets doors are all broken and off the hinges, my bed mattress is broken + cracks when I lay down and even when I sits on it. Everything from my Drawers to the tubs in my closets was on my floor. They even turned my couch upside

down. My couch was already broken somewhat but  
knew it completely broken (busted) and then they popped  
my speakers cushion a loose. On top of all that they  
didn't even leave me a note saying that they had raided  
my name and why they were raiding my house.

The Next Day I went to the police because my Neighbors  
told me that a large number of police and SWAT teams  
were surrounding my Apartment Doors and windows.  
Wearing protection gear such as helmets, Bullets proof vests,  
shields, and had rifles in their hands walking through  
the neighborhood with long metal poles in their hands  
ready to knock my doors in. Also there's a hole in my hall  
my wall and I don't know how ~~to~~ fix it.

~~Terica A. Patterson~~

Thank you Very much
