Subject: RE: News Release

Mike,

Thank you for the invite. The air pollution has been terrible in the last 6 months or more and continues through today. I am from California where pollution is common.

When we got involved to improve air quality, the City Council ordered a study on Air Quality and hired a company to do this, when the study was completed we had proof of pollutants and then could do something.

Coal miners in their day suffered from Black lung a form of cancer that killed many. I do hope we have looked at this technology and have found it safe.

I will not be able to attend the meeting tomorrow but you have my support to investigate further.

Regards,

Victor C. Ray – President/Walkers Point Association

Subject: FW: News Release

For those interested in the WE Menominee Valley power plant pollution issue affecting the near south side, please see the attachment.

Be advised the hearing referred to is tomorrow.

There are many (citizens and professionals alike) who believe that the coal fired plant is causing air (and other) pollutions that are adversely affecting residents to the south in Walker's Point...and beyond.

Ald. Bauman and Ald. Witkowiak encourage those who are concerned about this issue to attend the hearing tomorrow referred to in the attachment above.

Ald. Witkowiak is aware of the issue and is fully supportive of prompt changes at the plant.

Mike McGuire
12th AD Asst.

Mike and Jim,

I share Victor's sentiments.

I also cannot attend tomorrow, but am extremely concerned about this issue.

Please continue to fight for protections and improvements.

Please keep us updated.
