At around 7 pm on the block of 53rd and W Townsend St, a tree fell down my 2011 Hyundai Sonata SE. It fell on me and my neighbor's car. I wasn't notified until like an hour later by one of my neighbors. The tree scarred up the front hood of the car, all the way around to the driver side of my vehicle. The tree's length was so long that it reached from one side of the street to the other side. I couldn't even move my vehicle because the branches on the tree prevented me from entering my car on the driver's side. At around 10 pm, the City of Milwaukee came and removed the tree away from my car and disposed of the tree. One of the workers working for the city came up to me and gathered my information about the incident, he also took pictures of my vehicle.
