CLIENT EXECUTIVE

Greg first joined the firm as a design architect in 1985 and by 1990 was named a Design Principal. Greg's design expertise is diverse, yet the majority of his 25 year career has been in the design of office buildings and all types of work environments.

Some of his more notable designs include GE Healthcare-Waukesha and Research Park, Manpower World Headquarters and the Milwaukee Intermodal Station.

As president of the firm, Greg sees that all employees are living the mission and going beyond expectations in all aspects of the architectural process. His direct involvement in projects and his passion for serving the client are hallmarks of his management style.
