

SIMPLE AMENDMENT  
 SUBSTITUTE AMENDMENT  
 PROCEDURAL MOTION

---

**MOTION BY ALD. BAUMAN**

---

RELATING TO FILE NO. 201212

VERSION: SUBSTITUTE 1

TITLE: A substitute ordinance relating to licensing parking lots or places.

ITEM NUMBER

COMMITTEE: Public Works Committee

---

**MOTION**

I move to replace Part 3 of Common Council File Number 201212 with the following:

Part 3. Section 84-20-1.5 of the code is amended to read:

**1.5. FINDINGS.** The common council finds that ~~[[downtown]]~~ parking places are inherently ~~[[more prone than other parking places]]~~>>prone<<to crimes against parking patrons, vandalism of vehicles, theft of vehicles or property inside vehicles, and other threats to the security of parking patrons and property ~~[[due to population density in the area, ease of access to the area and other factors]]~~>>because the area is often deserted, easily accessed, poorly lighted and for other reasons<<. The common council further finds that greater oversight of the issuance of new licenses and the renewal of existing licenses for ~~[[downtown]]~~ parking places is likely to ameliorate the greater threat to the health, safety and security of parking patrons posed by ~~[[downtown]]~~ parking places.

---

**ANALYSIS OF MOTION**

This motion clarifies that parking places are found to be inherently prone to crimes against parking patrons, vandalism of vehicles, theft of vehicles or property inside vehicles, and other threats to the security of parking patrons and property.
