Subject: Data Center

Some people who received this message don't often get email from annabarkl13@gmail.com. [Learn why this is important](#)

Hello,

My name is Anna Barker and I am a recent resident of Milwaukee (08/2025). Upon hearing the news of the proposal for this data center, and the urgency in submitting a testimony in time, I am writing to oppose the creation of this center for a multitude of reasons.

To start: working class brown and Black communities will be hit the hardest by all of the noise, air pollution, and higher energy bills. Adding another data center to Milwaukee will only amplify the environmental and financial strain caused by big tech greed.

In a world that is already succumbing to climate change and irreversible damage, we as a community need to do our part in not adding to this destruction of our world. We should be lifting up our community, not destroying it and adding extra barriers to those that are already struggling.

I wholeheartedly oppose this proposal and will be outraged if this comes to fruition.

Thank you for your time,
Anna Barker
