Ms. Koster:

We are requesting permission to put trailers in our garden center to accommodate the Christmas merchandise that we will need. We are looking to obtain 45 trailers that we will put inside our garden center fence. There will be no trailers outside the fenced area. The location of the trailers will be located on the Southeast side of the building. We are looking to keep these trailers until Jan. 15, 2005. The trailers are needed to benefit our customers. It will allow us to order merchandise our customers look for during Christmas. We would greatly appreciate the approval for these trailers.

Included is a general floorplan of the layout of the trailers.

Sincerely,

Stacy Moran
