

7-23-25

Dear Alderman Pérez,

I oppose the Cudahy Farms development proposed for the Granville neighborhood. I have been working for two years to stop the development. I have enclosed copies of the petition which my neighbors have signed. These are only the neighbors that are adjacent to the property. One business owner also signed.

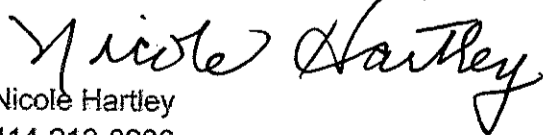

I am against the development because of what it will do to the acres of green space. Humans have done so much already to destroy native habitats. In my statements at the various government meetings I have given facts: the money that is saved by trees, tree equity scores, the principle of smart urban growth which are stated on the city of Milwaukee website. None of those facts seemed to be of interest to anyone, or they felt them to be unimportant. At many meetings, I felt the committee members had already made up their minds without hearing opposing viewpoints.

I've reached the conclusion that money and development at any cost are what city of Milwaukee officials are interested in. This is disturbing. What happened to the opinions of residents? What about the consequences due to the destruction of nature? The planet is already experiencing the effects of climate change with the increase of severe weather. The flooding across the country this summer is just one of the effects. During my fight to save this land, I've realized that many people do not know enough about nature and how it works,

Everything in nature is sacred. It is God's gift to us. It is in nature and in people that we see God's presence in the world.

Please prayerfully consider the consequences of your vote for the Cudahy Farms development. Thank you.

A 47 year resident on N. 86th St.,

Nicole Hartley
